**Public Laws 99–61 and 99–185 mandate that the United States Mint mint and issue its American Eagle Silver and Gold Bullion Coins “in quantities sufficient to meet public demand...” There is no corresponding legal requirement to mint and issue the proof and uncirculated coins in quantities sufficient to meet public demand. The bureau, however, is continuing to work with current and potential blank suppliers to increase the supply of silver and gold blanks in amounts that may make it possible to offer the proof and uncirculated versions of American Eagle Silver and Gold Coins in 2010.*

The United States Mint, created by Congress in 1792, is the Nation’s sole manufacturer of legal tender coinage. Its primary mission is to produce an adequate volume of circulating coinage for the Nation to conduct its trade and commerce. The United States Mint also produces proof, uncirculated and commemorative coins; Congressional Gold Medals; and silver, gold and platinum bullion coins.

Note: To ensure that all members of the public have fair and equal access to United States Mint products, orders placed prior to the official on-sale dates and times (noon ET), shall not be deemed accepted by the United States Mint and will not be honored.
